Smart contracts

We capture value for public and private landlords by offering a range of contract types and value propositions. We operate parking facilities that we own, have in concession, lease or have under a management contract.

Results

Of the 1,011 owned, in concession, long-leased, short-leased and management contracts:

- | 688 (68.1%) owned, concession or long-leased
- | 172 (17.0%) short-leased
- | 151 (14.9%) management

Strategic locations

We capture value for all our stakeholders through our portfolio of purpose-built and off-street parking facilities at strategic locations: in or near multifunctional inner-city areas, at public transport interchanges, and at hospitals.

In cities where we operate a certain number of car parks, we become a highly efficient parking operator and profound mobility partner. We can then engage in meaningful dialogue with other parking and mobility partners, including:

- | providers of parking route information systems;
- | urban planners regarding capacity of parking spaces needed and routing traffic;
